With the establishment of Shri Krishna Vidyalyaya Prabandhak Samiti Padampur, my respected father Dhamvasi Shri Baldev Raj Ji Parnami started primary education. Keeping in mind the backward condition of Mandi in terms of education, he resolved to make progress in the field of education. The benefit of which will not only be available to Padampur Mandi but also to the children of families living in the villages around it. Due to his positive thinking, his dream was soon fulfilled.

With the efforts of the management committee, higher and higher institutions were established. Under this, higher institutions include Shri Krishna Senior Secondary School, Padampur, higher institutions include Sant Sri Prannath Parnami PG College and Sant Sri Prannath Parnami B.Ed. College, Swami Shri Prannath Parnami Agricultural College and from this session, Swami Shri Prannath Parnami Pharmacy College has been started. For this, I cannot repay the debt of Dhamvasi Shri Baldev Raj Parnami ji, due to whom this small plant has taken the form of a banyan tree today. Along with this, I will remain grateful to Principal Dr. Shri Parvindra Jeet Singh and Secretary Shri Kunal Parnami and Parnami family, due to whose tireless efforts and hard work this was possible. And is going to happen in the future. Seeing the demand for English subject, Kids Paradise Convent School was started. I assure the officers, employees and students of all the institutions associated with the management committee that I will always be ready to fulfill your aspirations and desires. May all of you bring glory to your college family and country. With this hope, I welcome and greet you in the institutions and bless you for progress.

On this occasion, I want to say a few words dedicated to my father who gave me true guidance and inspired me to work hard continuously. My father was the first guru of my life who taught me the courage to face difficulties and the importance of honesty in life. His teachings and principles have helped me reach this position. His struggle and dedication taught me that no goal is impossible. If we try to achieve it with full hard work and dedication. I express my heartfelt gratitude to my father and promise that following his principles, I will make every possible effort to take this institution to the highest standards.

About the Conference: Global Multidisciplinary Education Conference

The **Global Multidisciplinary Education Conference (GMEC)** is an international academic platform that brings together educators, researchers, policymakers, industry leaders, and students from across the world to explore the intersections of diverse academic disciplines. Rooted in the belief that complex global challenges require collaborative and cross-disciplinary solutions, the conference serves as a vibrant forum for the exchange of ideas, research findings, pedagogical innovations, and policy insights.

The GMEC is designed to foster meaningful dialogue across traditional academic boundaries, encouraging participants to explore how disciplines such as science, technology, engineering, arts, humanities, social sciences, health, education, and environmental studies can intersect to create holistic approaches to learning, research, and real-world problem-solving.

Through keynote speeches by global thought leaders, panel discussions, paper presentations, interactive workshops, and networking sessions, the conference emphasizes:

- **Collaborative research** and innovation across disciplines
- **Global educational trends** and challenges
- **Sustainable development goals (SDGs)** in the context of education
- **Emerging technologies** in teaching and learning
- **Inclusive and equitable education** models for diverse populations
